

*Manisha & Anders,*

*This box holds moments - small, heartfelt reminders of how deeply you are loved by the people celebrating your journey.*

*Inside, you'll find handwritten notes, memories from Nepal, laughter, stories, and QR codes linked to personal videos recorded just for you both.*

*Each message is a blessing, each video a smile saved for later, each memory a reminder that you're surrounded by a community wishing you nothing but joy.*

*As you start this new chapter, may your days be filled with kindness, your home with peace, and your hearts with patience and respect.*

*May you always continue to choose each other - on the easy days, the hard days, and all the perfectly ordinary days in between.*

*Here's to a lifetime of shared adventures, late-night laughter, long talks, warm meals, and a partnership that keeps growing stronger year after year.*

*With love,*

*Your Friends & Family*
